technology

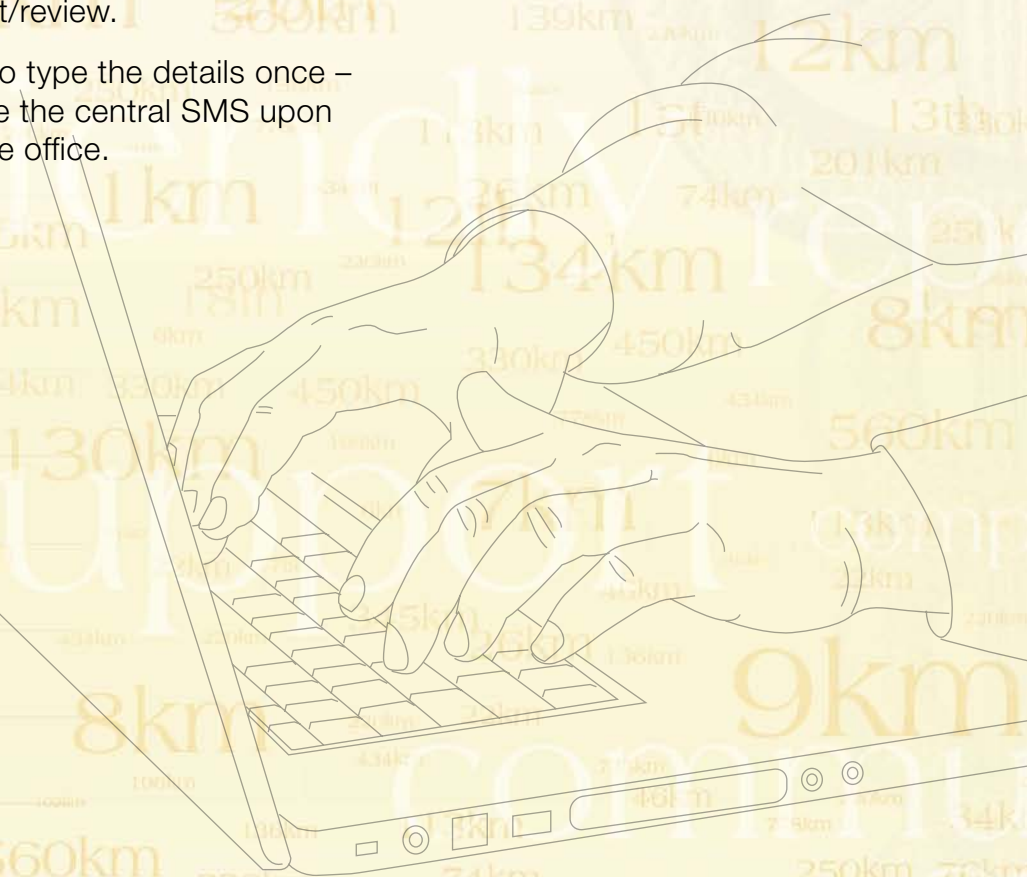

(A summary of the Standard features is overleaf)

The **Portable Assessment Module** is one of the additional Modules for the standard SMS package.

It allows client assessment information to be typed onto a laptop in the home and then uploaded into the system upon return to the office.

Additional Benefits provided by the Portable Assessment Module:

- Ability to have up to date client details from the central system at your fingertips to carry out the assessment/review.
- Only have to type the details once – then update the central SMS upon return to the office.

Purchase Costs and Support Packages

Costs are based on individual organisations requirements of optional Modules and the levels of support package. A quote can be obtained by contacting our support staff.

SERVICE MANAGEMENT SYSTEM (SMS)

Summary of the core standard features:

(you may not utilise all these feature immediately – you simply use what you need!)

Client Management:

- Personal records/care plans/case notes
- Service records for all service types/ assessments/reviews
- Client Fee invoicing
- Wide range of statistical reports

General Management:

- Waiting List management
- Mail merge for letters and labels
- Complaints monitoring
- Brokered agency billing/costing
- Reports – wide range of reports available

Worker /Volunteer Management:

- Personal records
- HR features
- Training records
- Summarise service hours for payroll
- Wide range of reports

Roster Management:

- Mix 'n' Match various screens and functions to suit your preferred way of rostering
- Selection of client/ worker/ volunteer roster reports
- Ability to e-mail rosters direct from the system
- Integration with other SMS Modules (e.g. Payroll Links) provides further enhancement

Includes a powerful Feature no other database can give you

A unique feature called Data Groups enables you to:

- Categorise your clients workers and services into Groups to match your organisations structure (e.g. Day Centre, In Home, Transport, HACC, CACP, VHC etc)
- Have the option to log into a Group and only see client/ worker and service records assigned to it (e.g. Day Centre will only see Day Centre Clients, Workers and Services)
- Obtain a wide range of reports on each of your Groups...effectively every screen and every report!!

It is a very flexible feature that customises the Standard system to your individual structure. Ask for a demonstration to see the benefits for your organisation.
